

Intelligent Content Services for SAP Solutions

Revolutionize Your Experience with Intelligent SAP Archiving

Ditch the overhead with a streamlined, AI-powered solution that transforms how your organization handles SAP content and compliance.

Zia's Intelligent Content Services for SAP Solutions goes beyond traditional archiving. We provide a unified, fully managed solution that combines automated archiving, content management, and seamless access. This saves you time, cuts costs, and reduces complexity.

- **No Hidden Costs:** Predictable, all-in-one pricing with no per-user or per-gigabyte fees.
- **All-in-One Platform:** Consolidates archiving, search, compliance, and content access into a single solution.
- **Low Maintenance:** Minimal configuration and no patch headaches. This is fully supported by Zia.
- **Designed To Work How You Work:** Seamless integration with your business productivity applications. Your end users won't know they are working with an archive.
- **Cloud-Ready:** Deployed in your hyperscaler of choice and aligned with your SAP environment.

What You Get: Business-Aligned Benefits

Smart archiving that aligns with your operational, compliance, and performance goals.

Improve SAP system performance and free up valuable resources

Meet governance and regulatory requirements with confidence

Reduce storage and infrastructure costs across your SAP landscape

Ensure end-to-end security with encryption and access control

Enable secure, external access to content without compromising control

Get certified for ArchiveLink and ILM on both ECC and S/4HANA

Interact with Print Lists and SAP data outside the SAP interface

Compliance Made Effortless

Built to align with SAP-native ILM strategies and your governance framework.

Automate archival processes based on your data retention policies

Integrate with existing tools via REST APIs

Access archived content through SAP GUI, Fiori, or custom portals

Boost performance and scalability while staying audit-ready

Why Leading Enterprises Choose Zia

Trusted by organizations across industries for intelligent, future-ready SAP content solutions.

Own Your Data

You stay in control with complete data ownership.

Enhanced Print List Support

Manage Print Lists, invoices, and related documents outside SAP.

Smarter Search with Gen AI

Use natural language to find what you need, fast.

Cloud Flexibility

Deploy in your hyperscaler or Zia Cloud with full SAP compatibility.

No Data Transfer Fees

No ingress or egress fees—just simple, transparent pricing.

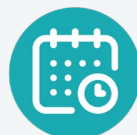

Get Started Today!

A smarter, simpler way to manage your data without complexity, hidden costs, or compromises.
