

TrailheadAI Bridge: Your Fast Track to TotalAgility

TUNGSTEN
AUTOMATION

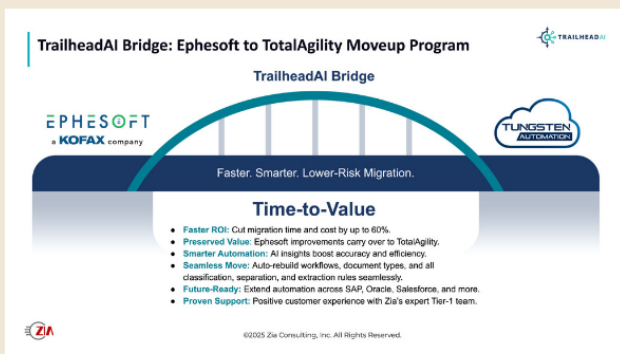

Built for a Smarter Transition

Zia and Tungsten Automation make it easy for Ephesoft customers to modernize with AI. Accelerate performance, reduce costs, and unlock enterprise-scale automation.

Preserve what works. Gain what's next.

Zia's AI utility lets you run your existing Ephesoft environment alongside TotalAgility for a faster, smoother, and lower-risk transition.

Brand Promise

Experience immediate ROI:
Cost & time savings up to 60%

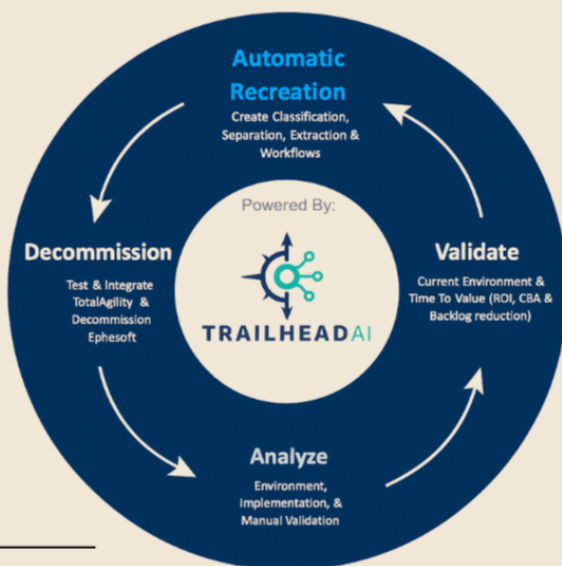

Protect your investment:
Performance enhancements in Ephesoft that carry over to TotalAgility

Unlock deeper data extraction:
Gain faster, more accurate insights from complex documents

Your Path Forward

Leave legacy systems behind with seamless integration, flexible deployment, end-to-end automation, and future read scalability

- Analyze** – Analyze your current Ephesoft implementation and uncover ROI, cost-benefit, and backlog-reduction opportunities.
- Validate** – Get a detailed report with clear efficiency metrics and time-to-value projections, so you can optimize your current environment and prepare for the future.
- Automatic Recreation** – Reduce manual set up with automatic rebuild of document types, classification, extraction, and workflows directly in TotalAgility.
- Decommission** – Complete Move Up to TotalAgility once Ephesoft replication is complete.
